

MUST READ

Dental Plan Information

- Retired members (**under or over 65**) are eligible to continue their Total Care Dental benefits into their retirement provided they were enrolled in the benefit prior to retiring.
- The cost-sharing arrangement with the Employer ceases once retired, and members must pay 100% of the premium out of their Teachers' Pension.
- Should a retired member terminate their Total Care Dental at retirement or at some point after continuing coverage into their retirement, they are precluded from re-enrollment.
- Because retired members had access to Total Care Dental, under the current rules, they do not qualify for the Canadian Dental Care Plan.
